**GRAY'S DAHLIA GARDEN**  
Milford, Delaware  
Glen Bros., Inc., Rochester, N. Y. November 27-'44  
Gents,  
I beg to advise that the trees that I ordered from your house sometime ago has arrived all O. K. and wish to thank you for your interest in this matter. The order was filled complete and packed perfect and the stock was all that you claimed for it. Wishing to thank you again for serving as you do.  
Very respectfully yours,  
Gray's Dahlia Garden,  
Box 114, Milford, Delaware  
NOTE: Mr. Gray ordered apple, pear and peach trees and grape vines in our large sizes, a total of 20 trees and vines.  
**A Satisfied Customer is the Best Advertisement.** For 79 years we have been receiving letters similar to Mr. Gray's.

**By all means plant this Spring. If you do not find what you want here, send for our 1945 General List of High Grade Nursery Products and Price List.**

EVER GROW ASPARAGUS? IT IS AS SIMPLE AS A. B. C. — PLANT  
**MARY WASHINGTON ASPARAGUS**

For health's sake, eat Asparagus, Mary Washington Asparagus. Cut it in your garden, cook it, and eat it the same day. Fresh Mary Washington Asparagus, of full health, rich in minerals and vitamins, too.

For the home or market, it stands ahead of all others in size, vigor, tenderness, and quality.

**START A BED THIS SPRING**

**ORDER AT ONCE**

**Good Asparagus roots are not too plentiful this Spring**

Plant in rows two feet apart, the plants one foot apart in the rows. Prepare a place of fine loamy soil to which has been added a liberal dressing of rich manure. For each row of plants dig a trench the width and depth of a spade. The plants are then set in the bottom of the trench at the proper distance, care being taken to properly spread the roots. The crown or top of the plant should then be covered with about three inches of soil that has been mixed with a quantity of well rotted stable manure. As the new shoots burst through the soil, more soil should be added until the entire trench has been filled. The bed should be manured freely each fall. An Asparagus Bed will last and produce good results for at least twenty years. Now if you have decided to try it, plant the **BEST VARIETY AND THAT IS—**

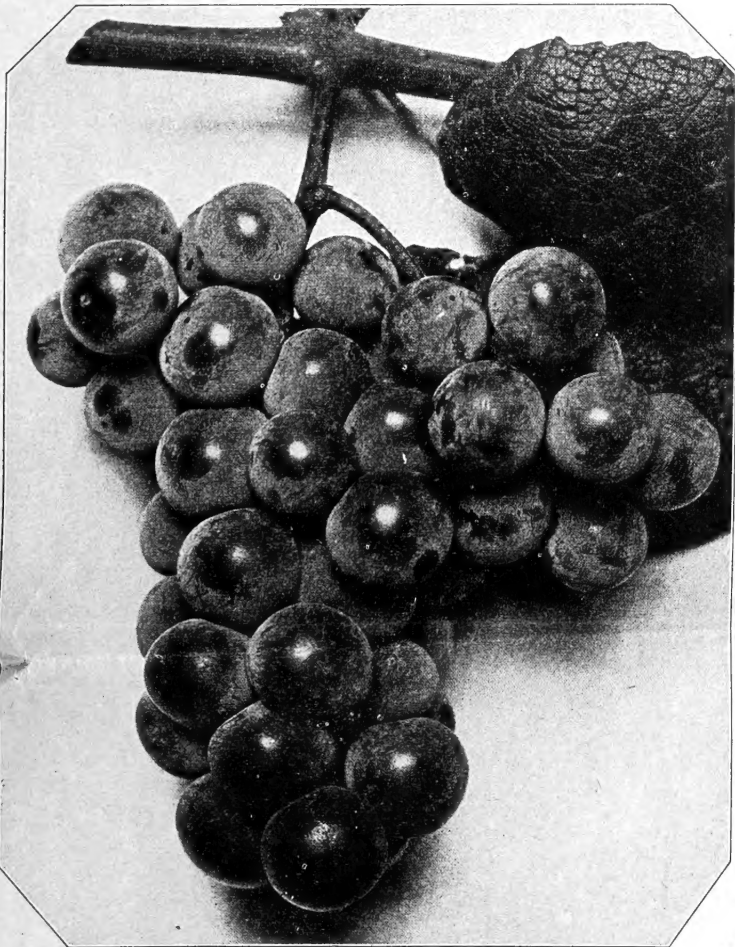

**MARY WASHINGTON THE VARIETY FOR YOU TO PLANT**

There is no variety of Asparagus as good as the Washington and no strain of the Washington as good as the Mary. Mary Washington is the only asparagus worth planting and in our opinion it will soon be the only asparagus planted. Plant our extra large 1 year old crowns and order now under this guarantee. If upon receipt of shipment you find the plants are not the finest and largest 1 year Asparagus you have ever seen, wrap them up and return to us and we will refund your money without question, quibble, or controversy.

PRICE: \$5.00 per 100, \$45 per 1000; 500 or more plants at the 1000 rate.

**GRAPES** ★ **BIG, JUICY GRAPES FOR DELICIOUS GRAPE JUICE, WINE, JELLY, OR EATING FRESH**

Nothing quite so sure to grow, nothing quite so sure to bear, nothing quite so sure to please every taste. Nothing unusual for these large plants to fruit first year planted. Planted this Spring should produce fruit first season. Extra large, extra old, extra fine 3-yr.-old plants that should fruit next fall. Planted wherever you can find a spot 6 inches square. It has its likes, but never insists on them. With its roots in any odd nook you can lead it away in any direction to provide a grateful shade for a restful seat.

Plant Grapes This Spring

Wherever you go, north, east, south, and west, whether on hill or in valley, on poor soil or rich, you will find the grape generously giving of its bounty and loyal to its master whether he give it care or neglect.

**Order now for shipment at proper time for planting in the Spring.**

**CATAWBA (Red).** Bunches large and loose. Berries large of coppery red color, becoming purplish when well ripened. Vinous, rich.

**CAMPBELL'S EARLY (Black).** Berries large and handsome, nearly round, black with light purple bloom. Flesh tender, quality rich, sweet. Vigorous grower.

**CHAMPAGNE (Red).** Very large; immense bearer, tender, juicy, sweet with a rich aromatic flavor. Its keeping qualities are superior. Fine for eating fresh or wine. A sterling variety.

**CONCORD (Black).** Large and handsome, very hardy, productive, and reliable. One of the most popular market grapes, succeeding well over a great extent of country.

**DELAWARE (Red).** One of the finest of our native grapes. Ripens early. Bunches small and compact. Light red with a violet bloom. Sweet, sugary, and vinous with a musky aroma.

**BRIGHTON (Red).** Flesh rich, sweet, and of the best quality, equal if not superior to Delaware, ripens early. Productive and vigorous.

**LUCILE (Red).** Bunches very large and compact. Berries large, rich dark red, pulp sweet, delicious. Extremely hardy. Tremendous crop.

**NIAGARA (White).** Bunches medium to large. Berry large, roundish, uniform skin thin but tough, pale green changing to pale yellow with thin whitish bloom. Tender, sweet; ripens with the Concord.

**WORDEN (Black).** Bunches large and handsome; berries larger than Concord and superior to that variety in flavor, vine healthy and hardy. A seedling of Concord, ripening a few days earlier.

Price of These Superior Size Superior Age Plants  
85c each, \$7.50 per 10

**GOLDEN MUSCAT**

The new, delicious California Grape that will grow and yield here in northeastern states.

**JUICY, RICH, HUGE BUNCHES**  
**PLANT THEM THIS SPRING—ORDER NOW**

Golden Muscat is the Grape of Grapes. A free bearer, sets perfectly and carries heavy loads of beautiful fruit. Matures early. Golden Muscat is the best of white varieties of the Muscat family for general cultivation. Golden Muscat possesses the rich golden color of Diamond, and the finest Muscat aroma of the California Muscats. For home use and roadside market, it is one of the best. The vine is vigorous, productive; the clusters are very large; the berries are large oval, juicy and sweet.

PRICE: One year plants only, \$1.35 each. Try it.  
Limit 5 Plants to a Customer

**Indian Summer Everbearing Raspberries**  
FOUR MONTHS DELICIOUS RASPBERRIES—YOU NEVER TIRE OF THEM

**Decidedly Superior to Any Other Everbearing Raspberry on the Market**

The Indian Summer is all Raspberry. It is red. It is juicy. It is delicious. It bears all Summer.

The New York State Agricultural Experiment Station, Geneva, N. Y., and this is what the New York State Horticultural Society and the American Raspberry Association at Geneva say about it: "Indian Summer is the first fall bearing or so called everbearing raspberry to be named by the Station."

It is decidedly superior to the varieties of its class now in the trade, namely Ranere, St. Regis, Eskine Park, and LaFrance group of fall bearing sorts. The berries are large, roundish, conic, slightly irregular, medium, red, rather soft, crumble very slightly and are good in quality. Summer crop ripens early or soon after June variety. The Autumn crop starts early in September and continues until a severe frost. The bulk of the fall crop ripening during October. The plants are hardy at Geneva. Vigorous, above medium height, and bear a heavy crop."

**OUR STRONG 2 YEAR TRANSPLANTS OF INDIAN SUMMER SELL FOR JUST**  
**\$3.00 per 10**  
**\$28.00 per 100**

The Association says that Indian Summer is superior to LaFrance. We have seen LaFrance offered at \$1.00 each or \$10.00 per 10. You can buy Indian Summer from us in larger plants, a far superior variety, at only \$3.00 per 10. Order a quantity today for Spring planting and pick fruit next summer and fall.

**Peaches Are Ripe**

**BIG JUICY PEACHES FROM THESE THRIFTY TREES**

Sliced with rich heavy cream and just a wee bit of sugar. Ye Gods, what a treat. Why let valuable land go to waste.

**PLANT PEACH TREES—OR SOME OTHER FRUIT TREES OR PLANTS AND GET SOMETHING OUT OF IT.**

We offer for Spring planting some extra large, well rooted, well branched trees grading 5 to 6 feet in height. Trees as tall as a big man, and in the following varieties:

**GOLDEN JUBILEE.** Fruit is large. Resembles Elberta in shape but ripens three weeks earlier. The skin is yellow flushed with red. Flesh yellow—juicy. Medium firm. Tender, sweet, and a freestone.

**ELBERTA.** Orange-yellow overspread with red.

**BELLE OF GEORGIA.** Creamy white, crimson cheek.

**J. H. HALE.** Rich golden-yellow carmine cheek.

**CHAMPION.** Creamy white splashed with crimson.

**HALE HAVEN.** A large, new yellow freestone developed at Michigan Experiment Station by crossing the two popular varieties of J. H. Hale and South Haven. Its high color even before complete ripening gives it great market value because of its advantages of premature picking, packing, and shipping without loss. Sept. 1st.

Plant Some of OUR BLUEBERRIES This Spring

Ours are Not the Ordinary Blueberries, but the Extraordinary—Ours are Cultivated Nursery Grown Hybrids that Produce the Big Luscious Berries and Plenty of Them

Can you imagine anything more satisfactory than having delicious blueberries growing in your own garden? No doubt you have enjoyed this wonderful fruit on the hotel or restaurant menu, served with cream for breakfast, or as blueberry pie or dumplings for luncheon or dinner. This is a fruit that satisfies for three meals a day and ten plants are quite sufficient to supply the average family with blueberries. They can be used freely for making breakfast muffins or preserves.

Sturdy Branched Bearing Plants

FOR QUICK AND HEAVY BEARING  
BIG CLUSTERS OF BIG BERRIES

\$2.75 EACH, \$25.00 PER 10 PLANTS

(Buy Two or More Varieties for Cross Pollenization)

CULTURAL DIRECTIONS

Blueberries require an acid soil to produce the best results. This is prevalent in many sections of the country. Where your soil is not acid, we suggest the following method to get the most from your plants. Choose a well-drained location, easily supplied by water during the dry summer months. Blueberries do best with full sun. In order to get the proper acid condition to your soil, mix partly rotted saw with the soil of your garden. A heavy mulch each fall of partly rotted leaves will maintain the acidity of the soil. Do not remove this mulch, but let it remain throughout the year. Never use manure or compost near a blueberry plant. No pruning is necessary except as a branch may become damaged or stop bearing. Water your plants well the first year, soaking the ground two or three feet away from the plants.

BLUEBERRIES ARE FOOD—FOOD WILL  
HELP WIN THE WAR!

CULTIVATED  
BLUEBERRY PLANTS

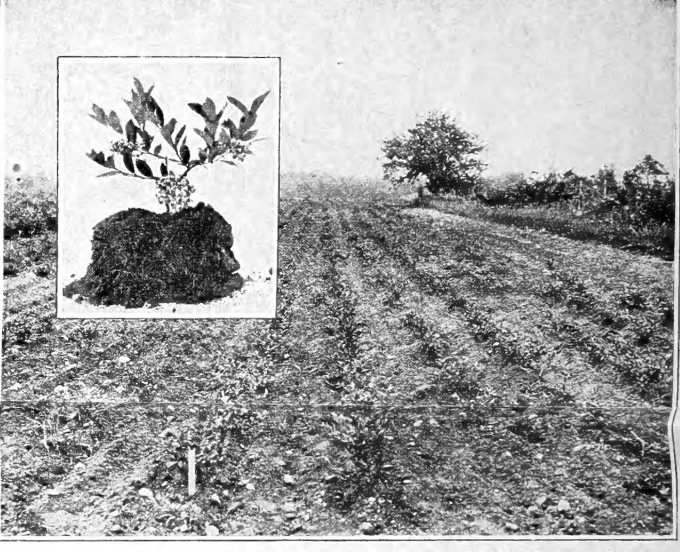

The largest blueberries for your table. Plump, tender, practically seedless and the size of grapes and far superior to the wild blueberry in flavor. With sugar and cream or for pies and preserves they are delicious, nor can the ornamental value of these cultivated blueberries be overlooked. During the summer the foliage is deep, satiny green and against this background hang clusters of berries royal in their magnificence. In the autumn the leaves turn to a beautiful crimson-bronze, with red branches during the winter. We offer the following varieties:

RUBEL. Berries are fine blue color and ready to pick the second week in July.

CABOT. Large berries. Have a delicious sub-acid flavor.

PIONEER. Produce heavy crops of berries of medium blue color and fine flavor.

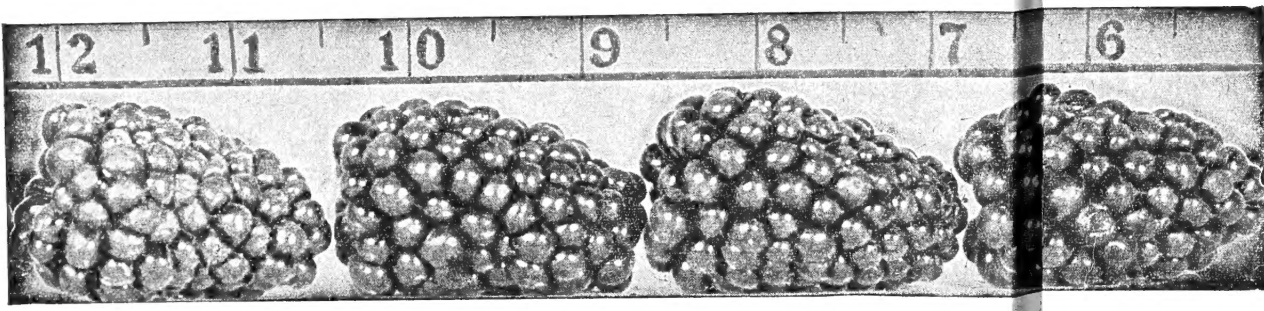

Try Ten Plants This Spring. Fruiting Season Early July 'till Late Summer

Our Plants Produce the Clusters of Big Berries in the Nursery Row

BOYSENBERRIES . . . THE MARVEL BERRY . . . IT IS A MARVEL IN SIZE, COLOR AND FLAVOR . . . A MARVEL TO EAT . . . PLANT SOME BOYSENBERRY PLANTS THIS SPRING

PRICE FOR THESE STRONG 2-YEAR TRANSPLANTS: \$3.00 PER 10; \$25.00 PER 100

GROW MORE NUT TREES

for Fun, Shade and Nuts

We offer this inexpensive assortment—1 small tree each of the following:

HICKORY SHAGBARK. 3-4 ft. Estimated as the choicest of native nuts. Fine flavor.

BUTTERNUT. 2-3 ft. Everyone knows and loves Butternuts. It is one of our finest native nut trees.

AMERICAN BLACK WALNUT. 3-4 ft. One of America's most useful nut-bearing trees—very rapid grower—nuts are rich, of fine flavor and heavy bearers.

JAPANESE WALNUT. 18-24 inch. Bears delicious nuts in racemes of a dozen or more. The shells are thinner than those of the Black Walnut.

KENTISH COB FILBERT. 3-4 ft. One of the best. Nut long, very rich flavor. Very good.

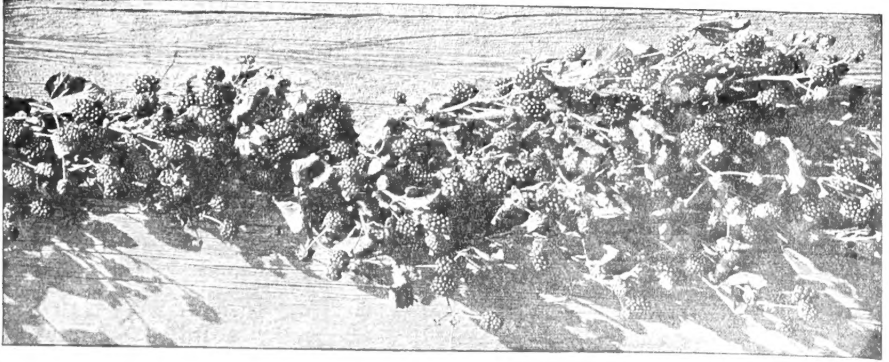

ALL 5, ALL DIFFERENT NUT TREES IN THE SIZES SPECIFIED FOR \$4.95

A Young Black Walnut Tree in Bearing

YUM! YUM! BLOWERS BIG BLACKBERRIES

With Sugar and Cream for Breakfast or Desert. Delicious fruit over a long bearing season. JULY TO FROST. From Plants in Your Own Garden

EXTRA  
FINE  
PLANTS  
\$2.00 per 10  
\$18.50  
per 100

RECORD. 14 ft. and 1 in. extreme height of bush. 2694 berries on one bush. 2720 quarts from one third acre. ON SEVEN ACRES—30,206 quarts; 45,307 lbs.; 943 15 16 bushels; 22 2 3 tons.  
\$2,121.75 NET F. O. B. HERE—\$303.10 average per acre. 153 bushels netted \$344.25 from best acre.

The Quality—Its sprightly, yet moderate acid taste, is indicative of the presence of those valuable medicinal properties, without which the blackberry is worthless. A large, clean, bright berry. The fruit is exceedingly sweet, with no perceptible core, when fully developed. It is a first-class shipper, standing up well for several days.

Hardiness—Plant Blowers Blackberries anywhere you would grow Concord grapes.

Distance Apart to Plant—Rows 8 ft. apart, 3 ft. in rows. This takes about 1800 plants to the acre.

Season of Fruiting—The season of ripening is from July 25 until frost; the bulk of the crop matures in the month of August. The yield in September and October depends upon the season; very few in October. We have had blossoms and ripe fruit in November.

LATHAM . . . The Big Giant RASPBERRY

EARLY, HEAVY YIELD—EXCELLENT QUALITY—ABSOLUTELY HARDY—DISEASE RESISTANT  
EASY TO GROW—SENSATIONAL IN YIELD AND PROFIT

5430 quarts per acre—\$1,629.00 per acre. A source of pleasure and economy for home owners. Its large, luscious, rich red fruit so appetizing in its appearance and flavor that it meets with instant approval.

We do not offer small one year plants, tip plants, sucker plants, or what have you. It takes too long for them to bear. PLANT OUR 2 YEAR TRANSPLANTS—LATHAM—THIS SPRING AND PICK FRUIT THIS SUMMER.

ORDER SOME LATHAM TODAY  
Price: \$2.50 per 10; \$22.50 per 100

We Offer 2 Year Transplants Only

With sugar and cream for breakfast—M-M.

"THE TASTE LINGERS"

LIMIT  
100  
TO A  
CUSTOMER

Not only is the North China Strain of Chinese Elm an extremely rapid-growing tree but it has none of the undesirable root characteristics of the Poplar. It is strictly an Elm, being as hardy as an Oak and as graceful as the Cut Leaf Birch. It thrives from Saskatchewan to the Gulf. Hot or cold, good soil or poor, it makes no difference. The Chinese Elm is easy to transplant and grows like the "Old Harry."

From H. R. Clark, Adrian State Bank Bldg., Adrian, Mich.  
"I want to take this occasion to tell you the Chinese Elm which I purchased from you 4 or 5 years ago has grown from a tree 4 to 5 ft. in height to a large tree. I will not dare to give you the size but it is a wonderful tree and already affords a nice amount of shade."  
From E. C. Holt, 702 North Caroline Bank and Trust Bldg., Burlington, N. C.  
"Please send me 10 Chinese Elms 5-6 ft. Please give me good selections as I want most of these for my neighbors. We are amazed at the growth of the one I bought from you several years ago."

**Genuine North China Strain of Chinese Elm**  
If You Want Quick Shade Our North China Strain of Chinese Elm Is Literally "Greased Lightning." It Is The Speed Tree—It Grows 40 to 50 Feet in 5 Years With Plenty of Spread

Of Course You Want Quick Shade—Of Course You Want Immediate Effect—Chinese Elm Will Give You Both

IF YOU WANT A  
WINDBREAK  
FOR A VERY  
EXPOSED  
AREA  
**CHINESE  
ELM**  
IS THE ANSWER

Our Chinese Elm Will Give You The Same Results It Has Given To Thousands of Other Customers

From Mr. Geo. Simmons, 70 Mount Pleasant Ave., Troy, N. Y.  
"I have one of your Chinese Elms which I purchased about 3 years ago. It has grown splendidly and makes a great deal of shade. The tree is now almost 28 ft. tall."  
From Mrs. C. Frank Dolman, 1724 Beaver St., Parkersburg, W. Va.  
"We bought 2 Chinese Elms from your nursery in Spring, 1932. They are now beautiful shade trees and admired by everyone."  
From W. E. Straup, Circulation Dept., "The Farmer's Guide," Huntington, Ind.  
"We already have 20 of your Chinese Elms. They are all you claim for them."

We are going to call your attention to this matter of there being two strains of Chinese Elm in this country, the NORTH CHINA STRAIN, introduced by the United States Department of Agriculture through their Chico Station in California and the Nanking strain. Ours are the GENUINE NORTH CHINA STRAIN. The Nanking strain does not do the same as the North China strain here in the East.

PRICES FOR CHINESE ELM

THE TREE OF MANY PURPOSES

**LOMBARDY POPLARS**

Rapid Growing Trees Used for Windbreaks, Street Trees and Ornamental Planting. Thrive in Any Soil. Thousands of Lombardys are Planted Every Year.

They Add to Any Landscape, Catching the Eye From a Far Distance.

We know of no tree grown that can give the tall, slender, columnar effect so much desired in certain landscape treatments as the Lombardy Poplar.

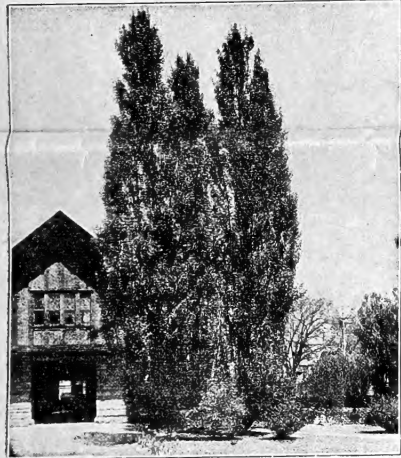

One of the most rapid growing trees we offer. Their great height, dense slenderness and sombre silhouette against the sky line,

creating an impressive picturesque old-world effect. Grows from 40 to 60 ft. in height. It is extensively planted in fine estates, along driveways and for backgrounds. Its branches are crowded, all growing upwards. Fills a place that no other tree can fill.

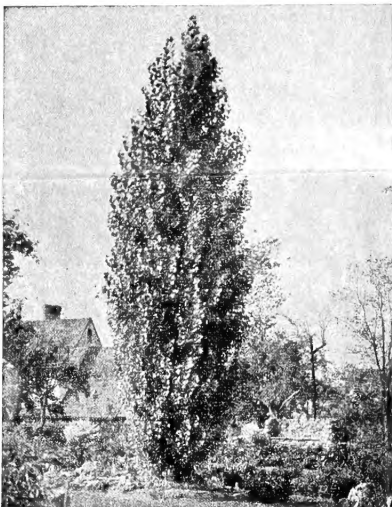

The selective appreciation of trained landscape builders is getting this fine type into much more general use. Old trees which were thoughtfully placed, are outstanding landmarks, to-day.

The LOMBARDY POPLAR planted 8 ft. apart makes an excellent hedge or windbreak. Why should you wade through snow when you can grow a fine windbreak in 2 or 3 years by planting LOMBARDY POPLAR?

Price  
**EXTRA LARGE TREES**

Lombardy Poplar

Ideal for Most Any Landscape

**BABYLONICA WEeping WILLOW**

Babylonica Willow—Willow Pond, Rochester

A VERY PICTURESQUE TREE  
This is The Common Weeping Willow

As an Ornamental Tree its weeping habit of growth makes it desirable for planting in certain locations about the grounds to obtain the proper ornamental effect. It succeeds almost anywhere.

Makes a beautiful, lacy tree. Attractive for planting beside creeks, ponds, pools, and other waterside planting. It has long whip-like branches, weeping to the ground. Babylonica Willow is without doubt one of the most remarkable of trees. The leaves are narrow tapering to a point and bright green. The bark is particularly handsome in Winter. Not necessary to plant near a stream. They thrive anywhere.

PRICES

6- 8 ft.	\$1.75 each; \$15.00 per 10
8-10 ft.	2.50 each; 22.50 per 10
10-12 ft.	3.50 each; 30.00 per 10

**THE BEAUTIFUL DOGWOOD TREES.. Red and White Flowering**

BLOOM IN MAY BEFORE THE LEAVES APPEAR—PLANT THEM THIS SPRING

Small trees of great hardiness and floral beauty, thriving in most any soil or exposure. The White Flowering Dogwood especially is recommended as one of the showiest of Flowering Trees. Some of the most enchanting results in ornamental plantings are attained by the liberal use of these valuable subjects. Growing to a height of 15 to 25 feet they are a mass of bloom in May before the leaves appear. Ours are specimen plants being strictly nursery grown and are far superior in every respect both in color, form, and root system to trees collected in the woods that are frequently offered by nurserymen. Every tree we offer is a nursery grown tree and at the lowest price on record.

A Dogwood Tree is One Immense Bouquet

**WHITE FLOWERING DOGWOOD**  
(Cornus Florida)

One of the most beautiful Flowering Trees. A small delightful tree with upright or spreading branches. Leaves oval bright green turning scarlet in foliage, changing to gorgeous red in Autumn. Fruit following the blossoms is a brilliant red in the Fall and hangs well into the Winter. Birds are especially fond of it. One of the finest Flowering Trees for the lawn and especially good in a shady location where it does well.

Size 4-5 ft. \$2.00 each, \$17.50 per 10; Size 5-6 ft. \$3.00 each, \$25.00 per 10

**RED FLOWERING DOGWOOD**  
(Cornus Florida Rubra)

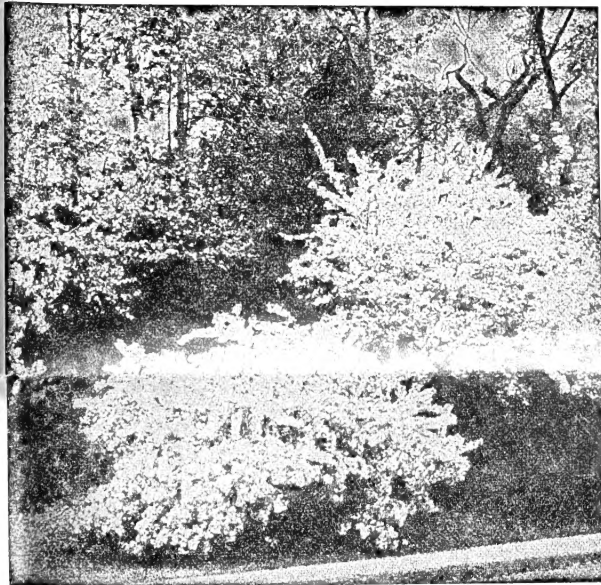

A strikingly beautiful form especially when planted in contrast with the White Flowering. The blossoms are rose-pink suffused with bright red and are extremely beautiful.

Size 3-4 ft. \$2.75 each, \$25.00 per 10; Size 4-5 ft. \$4.25 each, \$40.00 per 10

The Gorgeous Autumn Colorings of the Foliage are Magnificent

"THE FLOWERS THAT BLOOM IN THE SPRING TRA-LA"

DELIGHTFUL PERFUME FILLS THE AIR WHEN THE FLOWERING CRABS ARE IN BLOOM IN THE SPRING

Flowering Crabs Bring a Breath of Spring

NIEDZWETZKWANA. Sometimes called the red-veined Crab. Red to purple foliage, dark buds and flowers, with large purple fruits, with red flesh. The fruits are edible and make delicious jelly. We do not know where you could find 3 such delightful Flowering trees for the lawn, than these three.

ARNOLDIANA. Was originated in the Arnold Arboretum at Boston, and was evidently a seedling from some of the many beautiful varieties which are planted there. The semi-double flowers are pink and droop gracefully in long stalked clusters. In the autumn the tree is adorned with pendulous clusters of

waxy yellow fruits about the size of a cherry. Its habit is compact and it is seldom more than 10 to 12 feet high.

RED SILVER. One of the most ornamental varieties with striking dark red leaves conspicuously marked with light silver veins. It produces an unbelievable abundance of white flowers with sparkling yellow anthers, followed by glittering scarlet fruits which hang on almost all winter. It is a good ornament to any planting. The tree is very vigorous and grows to a height of about 15 feet.

PRICE: \$6.00 FOR 3; \$2.50 EACH SOLD SINGLY

**A MAGNIFICENT SHRUB COLLECTION**

In large size specimen plants. Grown expressly for Landscape purpose to produce immediate effect.

Fine for foundation planting or in groups or as single specimens about the lawn.

1 each of the following. Every plant will grade 3 1/2 to 5 ft.

HYDRANGEA PEE GEE. The hardiest and most popular Hydrangea. In July and August massive plumes of white flowers, later changing to pink, bend the branches with their weight.

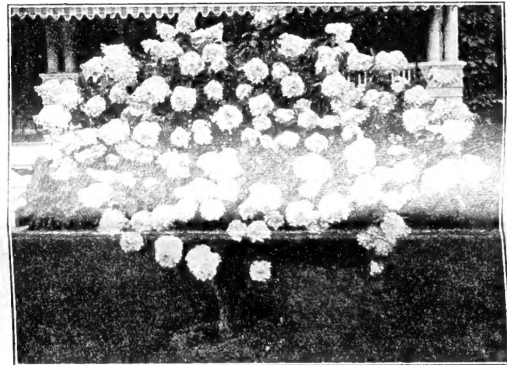

RED BRANCHED DOGWOOD. Very conspicuous and ornamental, especially in Winter when the bark turns to a blood-red.

FORSYTHIA FORTUNEL. Growth upright; foliage deep green; flowers bright yellow, appearing before the leaves. Very showy.

SWEET SYRINGA. In early June. Its fragrant, pure white flowers in dense clusters, so numerous as to bear the branches down when flowering. One of the best.

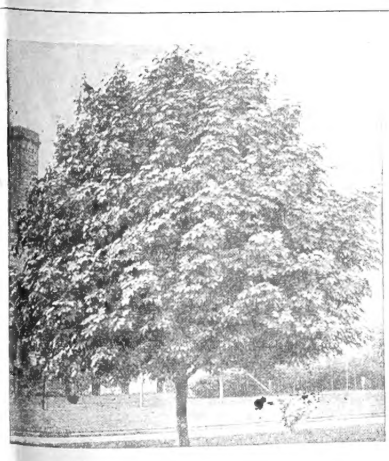

SPIREA BRIDAL WREATH. Beautiful white flowers, double and very profuse. Blooms in May. Foliage, scarlet in autumn.

CORAL BERRY. A low growing, graceful shrub. Its fruits are red, and the smaller red berries cluster in thick ropes along the weighted-down stems. August. Very desirable.

A Fine Specimen of Hydrangea Pee Gee

AN EVEN HALF DOZEN OF THE FINEST FLOWERS, SHRUBS IN THIS EXTRA LARGE LANDSCAPE SIZE FOR \$4.75

The Foliage Turns Yellow in Autumn

**NORWAY MAPLE**

BEAUTIFUL AS A STREET OR LAWN TREE

Grows rapidly, gives cool shade on the hottest days. Has clean, broad foliage of deep green. Has a round, compact head. Holds its foliage until late Autumn.

We offer a quantity of specimen trees of fairly large size to give immediate effect. All trees have well branched heads, straight trunks and heavy roots.

- PRESIDENT HARDING.** Single, buds deep crimson, flowers reddish lilac when fully open; clusters 7 to 8 inches long. Branching habit, low and compact.
- PRESIDENT ROOSEVELT.** Single. Buds deep purple red, bright purplish red when open. Branching habit, open and vigorous.

## PEONIES of Regal Beauty and Gorgeous Colors

Masses of Immense Blooms

Noblest and most beautiful of all flowers. These lovely flowers are indispensable in every garden. They rival the roses in beauty, form, and exquisite coloring, and excel them in size. They not only combine stateliness of growth with gorgeous coloring, but many of the huge blossoms possess the exquisite fragrance of a tea rose.

BEAUTIFUL IN THE GARDEN OR AS CUT FLOWERS

Six adorable varieties of magic color and huge size

WE OFFER SIX OF THE FOLLOWING DESCRIBED VARIETIES IN STRONG DIVISIONS WITH THREE TO FIVE EYES FOR ONLY

ONE EACH OF THE FOLLOWING **\$4.00** DON'T MISS THIS!

**LONGFELLOW.** Crimson red, strikingly beautiful. For cutting and garden decoration it ranks with the best.

**MONS. JULES ELIE.** The peerless pure pink. One of the hand-some and largest peonies in existence.

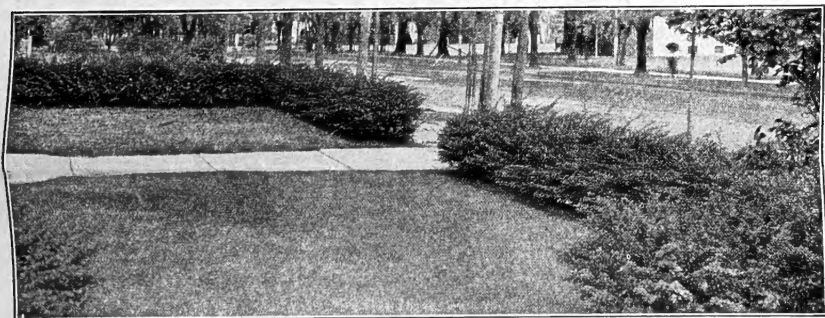

**ALBATRE.** Milk white shaded ivory. Very large and full and a great bloomer.

**MONS. MARTIN CAHUZAC.** Dark purple-garnet. The darkest peony known. Free bloomer. Very handsome.

**MADAME BUCQUET.** Dark crimson. One of the most satisfactory reds as a cut flower. Cut it in the bud.

**PRESIDENT W. H. TAFT.** Rose-pink. A tall, strong grower; stiff stems—very profuse bloomer. A grand peony.

## BARBERRY THUNBERGI HEDGE

Barberry Thunbergi Hedge

In the early spring the leaves are a soft shade of green, then as summer comes they turn to a deep glossy green. Later on they assume shades of crimson and brown or bronze-green.

ITS AUTUMN COLOR IS VERY BEAUTIFUL

Its berries are brilliantly attractive and since the birds will eat them only as a last resort, they frequently hang on until spring.

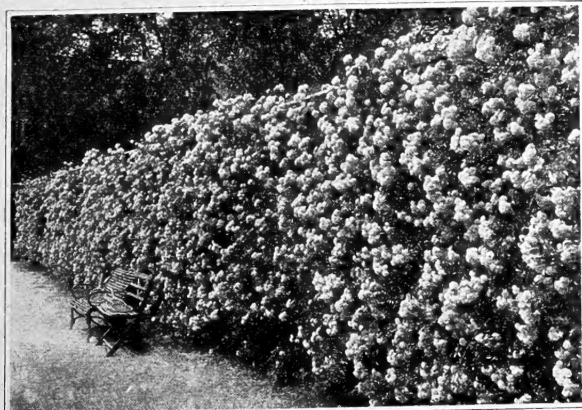

THE HEDGE OF  
BEAUTY—DENSITY—  
PROTECTION

THE HEDGE  
EVERLASTING—THE  
BEST OF ALL

From Christmas to  
Christmas  
Every Day in the Year  
Barberry is Beautiful

Left unpruned, it makes the most beautiful hedge grown, or where formal effect is desired repeated pruning will make a dense, impenetrable hedge. The plants we offer have been transplanted. They are well branched, well rooted, and planted one foot apart will produce immediate effect.

Price \$25.00 per 100

Trained on a Fence

## PAUL'S SCARLET CLIMBING ROSE

INTENSELY RED—SPECTACULAR BEAUTY  
Its Scarlet Alright—Fiery—Dazzling

When in bloom its loose cluster of from 5 to 15 bloom attractive flowers literally cover the plant. A great spectacular show is made even by a single plant. Can be trained on fences, stone walls, pillars, pergolas and porch trellises for shade, also against the walls of buildings.

PRICE for Two Year Old Blooming Plants  
**\$1.50 each**

Rose Bushes are scarce, better order to-day.

EARLY FLOWERING

## Chrysanthemums

Flowers From September 'Till Frost

These Should Make Your Garden a Riot of Color Next Fall

Their dashing, dazzling brilliant colors are a refreshing contrast to the dull drab of summer shrubs that are now through blooming. These Chrysanthemums will bloom long and persistently next Fall if planted this Spring.

Don't miss this Golden Opportunity to have a real Flower Show in your own garden next Fall.

The varieties offered are large flowered, measuring from 2 to 4 inches in diameter and come into bloom from one to two weeks earlier than usual varieties, all of them coming into bloom before the first frost.

They stay in bloom until frost, and give a most rich and long display of color.

THESE 12 FOR \$5.00

Plant these 12 outstanding varieties of Chrysanthemums this Spring. Extra heavy 2-year roots, one each of the following—12 in all.

WHAT COLOR—WHAT BLOOMS—WHAT A SIGHT!

**VIVID.** Rich deep amaranth red changing to wine-colored overlaid with a velvet sheen.

**GYPSY QUEEN.** Crimson maroon. A lovely aster type with pastel finish blushed with crest of soft yellow center. September.

**EXCELSIOR.** Yellow. Early October.

**MRS. A. PHILLIPS.** Lavender-pink. Late September.

**RUTH CUMMINGS.** Reddish bronze with terra-cotta shadings. Early October.

DAZZLING COLORS IN AUTUMN

Beautiful as Cut Flowers Too

**FRANCES WHITTLESEY.** Rich bronze and garnet. September and October.

**PINK CUSHION (Amelia).** Very compact and early free flowering. Light shell pink. Early October.

**JEAN TREADWAY.** Large decorative type, rose-shaded lighter. Very free. Late September.

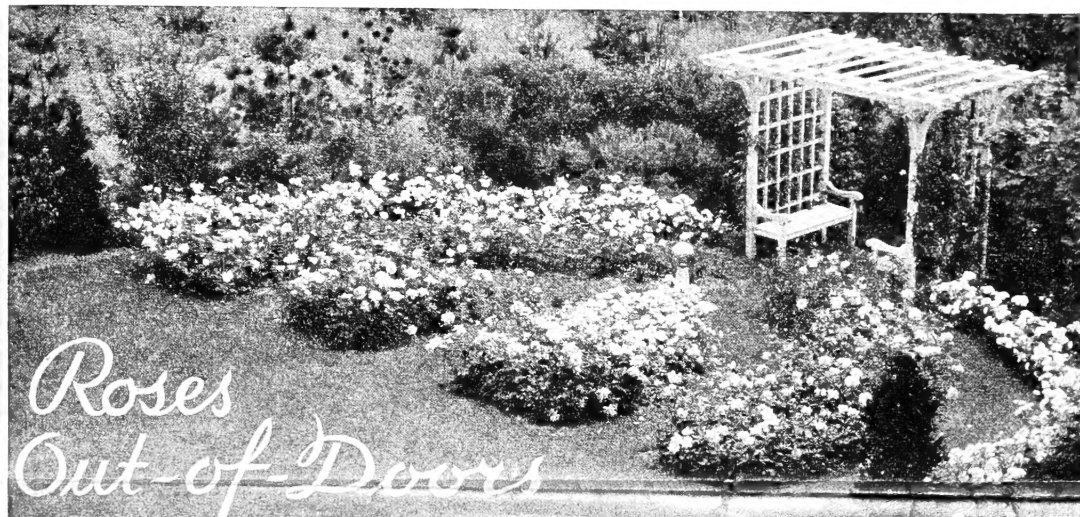

**JEAN CUMMINGS.** Large pure white flowers shaded yellow and blushed at center of buds. Late September.

**L'ARGENTUELES.** Reddish bronze. Very free. Early October.

**EARLY BRONZE.** Terra-cotta. Early October.

**BARBARA CUMMINGS.** Large, clear, double yellow flowers. Very late August.

## OUR EXQUISITE ROSE GARDEN for \$9.95

Why Not a Rose Garden for This Summer?

### VICTORY ROSE COLLECTION—10 ALL DIFFERENT

Every plant is 2 years old, outdoor grown, and has been in bloom in the nursery last summer. \$9.95 spent on this collection should give you as much pleasure and satisfaction as \$25.00 spent on anything else. HERE THEY ARE:

**CONDESA de SASTAGO.** Buds of golden yellow, beautifully striped with brilliant capucine-red. Red outside; copper-scarlet within. Very fragrant, a strong grower, and a most beautiful rose.

**AUTUMN.** Firm, full, compact bud. Burnt orange. Streaked and marked with red. Very fragrant and to say the least extremely attractive.

**HEINRICH WENDLAND.** Reddish copper. Large very double flowers of reddish copper with an orange flush over all. Backs of the petals are rich orange. The brilliant color blends well with the red and yellow roses. It has a rich fragrance, is a wonderful variety, and should be in every garden.

**TALISMAN.** Probably the most popular rose in America today. A magnificent multi-colored rose of golden apricot-yellow, blood orange, deep pink, and old gold. The most gorgeous assemblage of colors in one flower ever presented in a rose. Very fragrant and blooms all summer.

**E. G. HILL.** A most gorgeous red rose, having a beautiful long bud of perfect form. A full double, high-centered flower of dazzling scarlet shaded to a deeper red as it develops. Very free flowering and we do not know of any red rose that is superior.

**RADIANCE.** We say is the best pink rose ever introduced. A brilliant carmine-pink with salmon pink and yellow shadings at base of petals. It is the world's standard of perfection among pink roses and has been awarded prizes and medals galore.

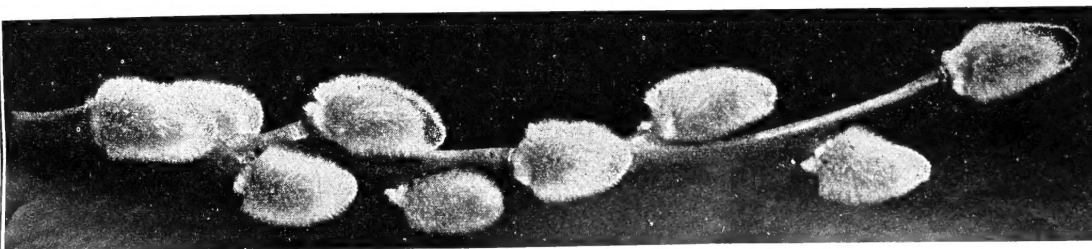

**MME. EDOUARD HERRIOT.** Winner of the \$50,000 prize offered by the London Daily Mail. Coral buds and shaded yellow. Copper orange and tinted yellow and scarlet. Wouldn't you just love to have one of these beauties blooming in your garden all summer? Beautiful bud and exquisite colorings.

**MRS. P. S. du PONT.** A great prize winning rose. Clear yellow with burnt orange heart. Long lasting and blooms all summer and fall. A great beauty.

**JOYOUS CAVALIER.** Brilliant scarlet. Blooms of magnificent size, producing a wealth of immense extremely fragrant flowers. A free bloomer and one of the best red roses we know of.

**MRS. ROWENA THOM.** Enormous blooms of fiery-rose and old gold. The long slender and pointed buds open to sweetly fragrant flowers of a most charming color. Free flowering and truly a most magnificent rose.

## FRENCH PUSSY WILLOWS BEAUTIFUL SUMMER AND WINTER

THE ONLY OUTDOOR SHRUB GROWN FROM WHICH YOU CAN CUT BOUQUETS DURING WINTER MONTHS

BUDS AND BLOOMS VERY LARGE

The buds or catkins are from one to two inches long after they come out in bloom and make a very dainty yellowish pink and silvery bouquet.

FINEST WINTER BOUQUETS

The branches can be cut in December, January or February, placed indoors in a vase of water and they will at once burst into bloom. When they are in full bloom they can be taken out of the water and they will retain their beauty for months.

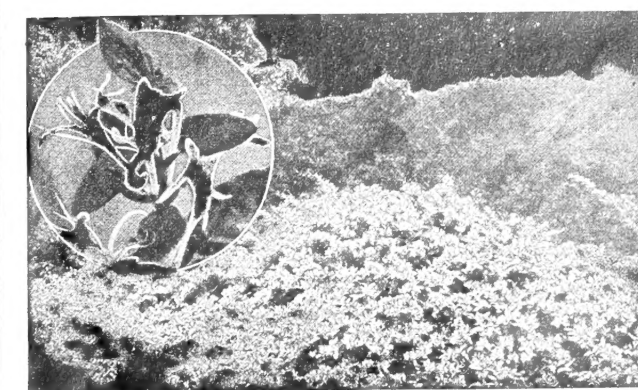

IT MAKES FINE TALL HEDGES OR SCREENS

These plants will fit in any landscape and should be planted on home grounds everywhere. They can be used as a background like any tall shrub such as the Lilac or Snowball. They can be used as tall hedges or screens and should be planted about four feet apart for this purpose. Planted alone, the branches cut each winter, they make a beautiful round shrub and ornament to any home grounds.

THE MOST INTERESTING PLANT FOR THE HOME GROUNDS

PRICE: French Pussy Willow Bushes (Size 4-5ft.)  
**\$1.25 each; \$11.00 per 10**

## Hall's Evergreen Honeysuckle

Evergreen Honeysuckle—The Thing for Banks

Is your planting problem an unsightly bank? Is it hard to make grass grow. Does the bank wash badly after hard rain? By setting the plants 2 ft. apart each way they will cover the bank with a beautiful velvety carpet the first season.

AND ALSO DESIRABLE ON A TRELLIS OR ARBOR

Its robust tropical growth and sweetly-scented white and yellow flowers make it a most satisfactory plant for the purposes described.

PREVENTS STEEP BANKS FROM WASHING

In our landscape work some of the best results have been obtained with Hall's Evergreen Honeysuckle. No bank is too steep to beautify with this old-fashioned favorite. The McKeesport Hospital at McKeesport, Pa., is located on a steep hill. It was difficult to make grass or anything grow. Our Landscape Architects were called into the picture. We used 5000 Hall's Evergreen Honeysuckle, planted 2 x 2 and it did the trick. The Westminster College at New Wilmington, Pa., had practically the same problem. It costs money to cut grass on steep banks and to cut the cost of upkeep on these banks we used more than 6000 Hall's Evergreen Honeysuckle and it has accomplished the desired results.

PRICES

**\$4.00 per 10; \$8.25 per 25; \$15.00 per 50; \$25.00 per 100**
